

California Wheat

Made with the Golden Touch!

Weekly Wheat Bulletin

Date: February 22, 2007 Issue# 6

*The Weekly Wheat Bulletin is designed to share quick, informal and reliable information about the state's wheat crop and disease conditions. Comments forwarded by Thursday morning of each week will be posted in the Bulletin for distribution Thursday evening. Archived copies of the 2007 Wheat Bulletin may be accessed on the California Wheat Commission website:
www.californiawheat.org*

General Comments:

"Wheat crop seems to be progressing normally with the warmer weather." Roy A. Motter, Grower, Imperial Valley

"Still, no rain in Western Riverside. It's quite a desolate sight." Mike Bouris, Menifee, CA

Events / Meetings:

Save the Date: The annual UC Davis Small Grains and Alfalfa/Forage Field Day, sponsored by the California Crop Improvement Association and the Department of Plant Sciences, will be held on Wednesday, April 25, 2007 at the UC Davis Agronomy Farm.

Resources:

We have been asked to include the following information from a previous wheat bulletin. Included in attachments to this e-mail.

◆Summary of Supplementary Information and Guidelines. For the UC/CWC "California Stripe Rust Management Plan for 2007" Provided by: Resource Seeds, Inc.

◆Facts about Wheat, Stripe Rust and Fungicides for Management Decision. Provided by Resource Seeds, Inc.

◆Fungicide Applications for Controlling Stripe Rust. Provided by Resource Seeds, Inc.

◆Monitoring Fields for Stripe Rust. Provided by Resource Seeds, Inc.

Please e-mail pictures of the 2007 wheat crop that you may have. We will be glad to share them.
